DEPARTMENT OF PHYSICS

Guest Lectures Using a ICT

Organized :Physics Department.

Resource Person: Ms.SHILPA PALLAKKI, Asst.Prof. and Head, Department of Physics, AME'S Degree College Raichur

Topic "CRYSTAL STRUCTURE" on dated 23-03-2023 for B.Sc.IV and VI as per the syllabus.

Prof SHILPA PALLAKKI madam guided the students about the Crystal Structure; it is obtained by attaching atoms, groups of atoms or molecules. This structure occurs from the intrinsic nature of the constituent particles to produce symmetric patterns.

Ms.Vimala K. R introduced the guest and remarked vote of thanks. Prof .P.H Narahatti Principal and Dr Venkatesh B Devaru IQAC co coordinator and all B.Sc IV and VI sem students were present for the lecture.

DEPARTMENT OF PHYSICS

Guest Lectures Using a ICT

Organized :Physics Department.

Resource Person: Mr. Sharanabasaveshwar S, Department of Physics, GFGC, Afzalpur, Kalaburagi

Topic “**Fundamentals of physics**” on dated 19-09-2022 for B.Sc.I, students as per the syllabus.

Prof Sharanabasaveshwar S, sir speaker informed about the development in physics is continuous process. Today, the physics of complex systems has become more and more important. However, the basic laws (integrals of motion, how to implement symmetries, continuous and discrete symmetries) are still the same. All new physical theories have to obey the basic laws and symmetries which were observed and investigated in the 20th century.

Ms.Chaitra introduced the guest and remarked vote of thanks. **Dr. Venkatesh B Devaru** Principal and Dr **Jayateertha N S** IQAC co coordinator and all B.Sc I,sem students were present for the lecture.

DEPARTMENT OF PHYSICS

Guest Lectures Using a ICT

Organized :Physics Department.

Resource Person: Miss Vimala K R, AME's Degree College Raichur,

Topic “**Nuclear Reactions**” on dated 25-02-2019t for B.Sc. V as per the syllabus.

Prof miss Vimala madam speaker informed about the nature and utility of nuclear reactions, especially in the context of radioactive rare-isotope exotic beams. And also speaker focused much of what we need to know to understand basic nuclear reactions are not very complicated.

Mr. Vijakumar introduced the guest and remarked vote of thanks. **Prof. Chandrakanth**, Principal and **Dr Venkatesh B Devaru IQAC coordinator** and all B.Sc V sem students were present for the lecture.

DEPARTMENT OF PHYSICS

Guest Lectures Using a ICT

Organized :Physics Department.

Resource Person: **Dr. Ashwajeet J.S** Department of Physics Davanagere University,
Davanagere,

Topic “**CRYSTAL STRUCTURE** “on dated 01-09-2023t for both UG and PG studentsas per the syllabus.

Prof **Dr. Ashwajeet J.S** deliver the lecture about the Crystal Structure, it is ubiquitous in nature and represent a key element in several scientific fields such as mineralogy, chemistry, physics, metallurgy, geology, biology, and medicine

The vast majority of materials are crystalline, and so any study of materials must start with introducing some basics of crystallography including the use of a unit cell to describe the periodicity in the crystal and how to represent symmetry in crystals. In a crystal, the atoms form a periodic lattice that can act as a diffraction grating to radiation, and diffraction is therefore an important characterisation tool.

Dr. Chakradhar B Asst prof and HOD of physics departments introduced the guest and remarked vote of thanks. **Dr Venkatesh B Devaru.**, Principal and **Dr. Jayatheerth N S IQAC coordinator** and both UG and PG students were present for the lecture.

DEPARTMENT OF PHYSICS

Guest Lectures Using a ICT

Organized :Physics Department.

Resource Person: **Dr. Avinash P** Department of Physics VSK University, Bellary,

Topic “**Nuclear Models** “on dated 02-09-2023t for both UG and PG students as per the syllabus.

Prof Dr. Avinash P deliver the lecture , on focusing with the shell model (SM), as this SM model entered into nuclear physics almost 70 years ago after Maria Goeppert Mayer and Hans Jensen - who shared the Nobel prize in 1963 for their work – were able to explain the mystery behind the magic numbers associated with the great stability in the ground state of some nuclides.

Dr. Chakradhar B Asst prof and HOD of physics departments introduced the guest and remarked vote of thanks. **Dr Venkatesh B Devaru.**, Principal and **Dr. Jayatheerth N S** IQAC co coordinator and both UG and PG students were present for the lecture.

DEPARTMENT OF PHYSICS

Guest Lectures Using a ICT

Organized :Physics Department.

Resource Person: by **Prof. Mahadev Chawhan**, Department of Physics, Kohinoor Degree College, Kalaburagi

Topic “**Special theory of Relativity**” on dated 18-09-2022 for B.Sc I,III and V sem students as per the syllabus.

Prof. Mahadev Chawhan speaker enlightened about Albert Einstein and the theory which he has postulated about the special theory of relativity to explain the energy relationship with mass, space and time from the general theory of relativity. The special theory of relativity says that space and time are relative concepts and light travels at a constant speed in a vacuum.

Dr. Chakradhar B Asst prof and HOD of physics departments introduced the guest and remarked vote of thanks. **Dr Venkatesh B Devaru** Principal and **Dr.Jayateerth .N.S IQAC coordinator** and all B.Sc I,III and V sem students were present for the lecture.

DEPARTMENT OF PHYSICS

Guest Lectures Using a ICT

Organized :Physics Department.

Resource Person: by **Prof. Pratap .J** Department of Physics, S.R.P.S PU College, Raichur

Topic : “**Polarisation**” on dated 12-03-2019 for B.Sc III sem students as per the syllabus.

Prof. Pratap .J speaker gave introduction to the topic, Polarization, in Physics, is defined as a phenomenon caused due to the wave nature of electromagnetic radiation.

Light, viewed classically, is a transverse electromagnetic wave. Namely, the underlying oscillation (in this case oscillating electric and magnetic fields) is along directions perpendicular to the direction of propagation. and speaker discussed that Light may be polarized by passing it through a sheet of commercial material called Polaroid, invented by E.H. Land in 1938.

Mr. Mukkanna introduced the guest and remarked vote of thanks. **Prof. Chandrakanth** Principal and **Dr. Venkatesh B Devaru** IQAC coordinator and all B.Sc III sem students were present for the lecture.

INDUSTRIAL VISIT (AKHILA FOODS AND BEVERAGES) 16-1-2023

REPORT:

Students of Department of Zoology visited to “AKHILA FOODS AND BEVERAGES” under the guidance of faculties Dr. Manjunath. K, Mrs. Akshatha and Miss. Swathi.

A special lecture was organized to understand the process involved in the structure and working of the water purification plant.

Students got an excellent benefit by visiting the biggest water purification plant in this area with and understand about the purification methods.

Water treatment is whereby the used water or raw water from the river is treated in process to make the water more acceptable for a desired end-used. The goal of water treatment is to remove existing contaminants in the water, or reduce the concentration of such contaminants so the water becomes fit for its desired end-used. The process involved in treating water is solids separation using physical process and chemical process.

Before the water is distributed into the public houses, the water has to undergo the water treatment process such as follows: -

- It is also to increase DO level in water and remove DOC
- Coagulation is the removal of turbidity from the water.
- Turbidity is a cloudy appearance of water caused by small particles suspended therein.

Water with little or no turbidity will clear.

- Disinfection is to destroy pathogens within a practicable period of time.

This field visit knowledge to the students about the purification of water on large scale and made us aware about the quality of water since it may affect the human health especially

INTERNSHIP ON VIROLOGY AND COVID-19 RESEARCH

IIT KHARGPUR (3-3-2023)

REPORT:

Department of Zoology with E-Cell Kharagpur (IIT) Internship organized hands on training on “Virology and Covid-19 Research”.

MakeIntern workshop partner of E-Cell (IIT Kharagpur) is putting up 35 training centers across PAN India for being a part of the National Level Championship @IIT Campus.

Resource faculty Dr. Vidyasagar had special talk on merging trend in scientific research area about the Virology and Covid-19.

Coronaviruses are important human and animal pathogens. At the end of 2019, a novel coronavirus was identified as the cause of a cluster of pneumonia cases in Wuhan, a city in the Hubei Province of China. It rapidly spread, resulting in an epidemic throughout China, followed by a global pandemic. In February 2020, the World Health Organization (WHO) designated the disease COVID-19, which stands for coronavirus disease 2019. The virus that causes COVID-19 is designated severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2); previously, it was referred to as 2019-nCoV. The WHO declared an end to the COVID-19 global health emergency in May 2023, more than three years after its emergence.

The two day session mainly focused and discussed about the virology, epidemiology, and prevention of COVID-19.

The student participants are satisfied for attending the sessions and most of them given excellent feedback.

E-Quiz COVID-19 !!
Organized by Laxmi Venkatesh Desai, College Raichur 584101, Karnataka

Dear Friend,

The recent outbreak of COVID-19 disease caused by novel corona virus is spreading rapidly throughout the world. The World Health Organization (WHO) declared it a Public Health Emergency of International Concern (PHEIC) on 30th January 2020. The virus infects humans with no discrimination with regard to country, religion or race. In India, the number of cases of individuals infected with the virus and those who succumb to the disease are rising every day. The central and state governments and local administrative bodies are putting in all the efforts to control the spread of the disease, until effective medications are available to save precious lives of our countrymen. The government has issued certain guidelines to the public based on the WHO recommendations, which, if followed carefully will save the population from the disease and help eradicate it.

In order to support the government efforts, the Laxmi Venkatesh Desai, College Raichur, Karnataka has taken initiative to increase awareness of the public about this dreadful disease. Kindly spare some time to fill up the following questionnaire based on your own knowledge about COVID-19. This questionnaire is intended for high school and college students as well as for general public. The questionnaire is designed to provide you information about the disease, how it spreads, how it can be controlled and also about how the people can remain physically fit and mentally healthy in the current situation. For every correct answer to the questions, you will receive one point. Upon answering all the questions and submission of the

Title: Two day workshop on "Biochemical methods and Instruments handling"

Date(s): 07-02-2023 to 09-02-2023

Preamble: Three day workshop on "Biochemical methods and Instruments handling" has been conducted from 7th to 9th February 2023, at Taranth Shikshana Samste, Laxmi Venkatesh Desai College, Raichur.

Participant's Profile: A total of 15 students from all the life science were participated.

Description about the Program:

Day one:

1. Dr. Venkatesh B Devaru, Principal, presided over the function.
2. Dr. Jayateertha N S IQAC Coordinator has participated and spoke on the topic:

Introduction to the Workshop. In this speech, he emphasized on the objectives of the training and the technical sessions planned for the participants to know the techniques in detail via interactions with the experts.

3. Smt Hemalatha S A

a. Session:

Urged the students to become scientific ambassadors not only for this Workshop but also for other DST STUTI programs as well.

b. Afternoon session was practical oriented with sample analysing.

Day two:

Miss Jyothi

a. Resource person emphasised the use of new techniques and their requirement for having such kind of training workshop periodically for update of knowledge and fulfilling their career goals, using sophisticated analytical equipment, like electron microscope.

b. Afternoon session was practical oriented.

Day three

Miss Suvarna Metigouda

a. She has discussed about 'Principles of electron microscopy', which was followed by specimen preparation (primary fixation).

b. Afternoon session was purely on practical which included Quantitative analysis and Separation techniques.

Dr. Jayateertha N S, proposed vote of thanks.

Feedback:

All the faculties expressed their gratitude to IQAC Coordinator, Dr. Jayateertha N S for

organizing the workshop which was useful to understand about the research methodology.

Future Perspectives: The IQAC is looking forward to organize seminars/conference/workshop with respect to multidisciplinary area.

REPORT

Title : Biochemical methods and Instruments handling

The workshop was carried out for BSc III sem Life Science students for three days from **07/02/23** to **09/02/23** in the Department of Biotechnology, LVD College , Raichur entitled "Biochemical methods and Instruments handling". With the participation in the work shop the students have attained knowledge and skill of instruments handling and learned the Quantitative analysis and Separation techniques. with this practical exposure students gained expertise in performing laboratory experiments. The total number of students participated and benefited were 65.

Department of English & Department of Hindi jointly conducting on
E-Quiz COVID-19 !!
Organized by Laxmi Venkatesh Desai, College Raichur, 584101, Karnataka

Dear Friend,
The recent outbreak of COVID-19 disease caused by novel corona virus is spreading rapidly throughout the world. The World Health Organization (WHO) declared it a Public Health Emergency of International Concern (PHEIC) on 30th January 2020. The virus infects humans with no discrimination with regard to country, religion or race. In India, the number of cases of individuals infected with the virus and those who succumb to the disease are rising every day. The central and state governments and local administrative bodies are putting in all the efforts to control the spread of the disease, until effective medications are available to save precious lives of our countrymen. The government has issued certain guidelines to the public based on the WHO recommendations, which, if followed carefully will save the population from the disease and help eradicate it.

In order to support the government efforts, the Laxmi Venkatesh Desai, College Raichur, Karnataka has taken initiative to increase awareness of the public about this dreadful disease. Kindly spare some time to fill up the following questionnaire based on your own knowledge about COVID-19. This questionnaire is intended for high school and college students as well as for general public. The questionnaire is designed to provide you information about the disease, how it spreads, how it can be controlled and also about how the people can remain physically fit and mentally healthy in the current situation. For every correct answer to the questions, remain physically fit and mentally healthy in the current situation. For every correct answer to the questions, remain physically fit and mentally healthy in the current situation. For every correct answer to the questions, remain physically fit and mentally healthy in the current situation.

Report on Micromania & Teachers Day Celebration-2023

On 5/09/2023, Micromania (microfest) was organized in the Department of Microbiology on the occasion of Teachers Day has celebrated a unique way of learning microbiology in the form of "Micromania- 2023" (Festival of Microbiology). This was first attempt in our department in which teachers Day was also celebrated, all activities were showcase of hidden talents and have been a great exposure for the students.

Following activities were done by the students of all the semester

- Microbial art
- Microorganisms Pictionary
- Micro Chef (Prepared healthy, fermented food)
- Micro Ad Show.

Almost all the students from each semester have participated in this event and made it successful.

Inauguration of the event was done at the hands of Principal Dr. Venkatesh B. Devaru and Dr. Anjeneya & Dr. Jayatheerth. IQAC Co-ordinator, Dr. Kamala Navaratna HOD Dept. of Microbiology addressed the event and describe the each event and its benefits in learning the subject making it easier. Other faculty staffs were present and assisted in execution of the inaugural ceremony.

Events like Micro chef, Micro Quiz, Sing the science, Memory Booster, and Ad Mad Show were arranged.

In Micro Chef Competition, students have prepared variety of foods that involve the use of microorganisms like curd, lassi, kimchi, srikhand, moektail, salads etc. In microbial art students of IV & VI semester represented their talents in the growth of microorganisms using various media, II, IV & VI semester students exposed their talents in the form of rangoli on the theme of microbial infection.
