Introducing

Add-on course

On

“VERMICULTURE AND VERMICOMPOSTING”

For 30 Hours

Eligibility: XII Passed (BA/ B. Sc /BCA)

Course Start Date: 19-01-2023

**A warm welcome to all the students
& staff**

Aristotle once said, "Worm are the Intestines of the Earth". Vermiculture is a technique based on utilizing some species of earthworms to convert organic waste into Vermicompost which is again, the product of decomposition by various worms. It is a practice of harvesting worms that take part in decomposing organic waste and turning it into nutrient-rich fertilizer.

OBJECTIVE OF THE COURSE

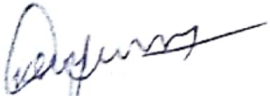

➤ Students will be able to compost in a limited space and describe the decomposing process.

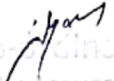

➤ Will get the knowledge of biodiversity of local earthworms.

➤ LEARNING OUTCOMES

➤ Understanding the role of worm farming in Modern Farming.

➤ Role of Vermiculture in protecting the environment and managing the waste.

Respected Sir,

Sub: Permission to start an Add - On course.

With respect to the above cited subject I, the undersigned request you to grant permission to start an Add-on course titled "VERMICULTURE AND VERMICOMPOSTING" to B.Sc I/II/III year students. The details of syllabus and duration are enclosed. This course helps students to build up their skills. Kindly grant the permission.

Thanking You.

Permitted

BOARD OF STUDIES MEETING INVITATION Date: 09-01-2023

Respected Sir/ Madam,

Department of Zoology

Board of meeting which has been scheduled on 9th January 2023 in the Department of Zoology at 10.30 AM. I would like to invite all for BOS meeting to give your valuable suggestion on curriculum and syllabus.

With regards,

HoD

Department of Zoology

BOARD OF STUDIES MEETING-MINUTES

Date: 09-01-2023

Department of Zoology

Board of meeting which has been scheduled on 9th January 2023 in the Department of Zoology at 10.30 AM. At the outset, Chairman welcomed all the members and the discussions are recorded.

Agenda

1. To approve the panel of BOS Chairman, External and Internal members for Add-on course.
2. To revise the syllabus.

Meeting minutes

1. BOS board members reviewed the feedback analysis report of all the stalk holders.
2. The reports of Department Advisory Committee were taken into consideration for the BOS meeting.
3. Members reviewed and revised the curriculum and syllabus for Add-on course "VERMICULTURE AND VERMICOMPOSTING".
4. The parameters considered for revision:
 - a. The importance of research activities and entrepreneurial skill development to enhance employability
 - b. A detail of the course revisions was done.

The above recommendations are submitted for the approval in the Academic council meeting.

Sub: Invitation for Board of Studies meeting as Chairman on 9th January 2023 regarding.

Respected sir,

With respect to the above cited subject, we take privilege in inviting you for the Board of Studies Meeting as Chairman for Add-on course "VERMICULTURE AND VERMICOMPOSTING" which will be conducted on 9th January 2023 in the Dept. Of Zoology, L.V.D College, Raichur, for the academic year 2023-24. In this regard, we request for your valuable suggestion in revising the Curriculum & Syllabus based on latest technology in vermicomposting for micro-entrepreneurship development as it has emerged as an efficient, eco friendly waste management system which enhances knowledge in the student's community to shape themselves for their bright future. Hence, kindly accept and confirm your visit for attending the Board of Studies meeting. Kindly confirm your visit by informing to the Principal.

With Warm Regards

HoD

DEPARTMENT OF ZOOLOGY

NOTICE

Based on the feedback analysis and Suggestion of students, college has introduced an Add-on course "VERMICULTURE AND VERMICOMPOSTING" with the duration of 30 hrs. Since students are eligible to get enrolled. After the completion of the course the beneficiaries get good scope on employability. The total seats are restricted to 30 only.

Interested students register their name to the program co-coordinator on or before 12-01-2023.

{Reaccredited with 'B' Grade by NAAC}

**DEPARTMENT OF ZOOLOGY
VERMICULTURE AND VERMICOMPOSTING
COURSE OVERVIEW**

35 hrs

Aristotle once said, "Worms are the Intestines of the Earth". Vermiculture is a technique based on utilizing some species of earthworms to convert organic waste into Vermicompost which is again, the product of decomposition by various worms. It is a practice of harvesting worms that take part in decomposing organic waste and turning it into nutrient-rich fertilizer.

Vermiculture and vermicomposting are the best and environment friendly methods for producing nutrient rich manure for home gardening and agriculture. The course on vermicomposting aims at imparting sufficient understanding and skill to the student for an economically viable activity. Vermiculture is environment friendly since earthworms feed on anything that is biodegradable, vermicomposting can aid in garbage disposal problems. No imported inputs are required, worms are available locally and organic matter for feeding are abundant locally as market wastes, grasses, used papers and farm waste.

AIMS AND OBJECTIVES:

1. Students will be able to compost in a limited space and describe the decomposing process.
2. The interested students will get the knowledge of composting.
3. Students will get the employment.
4. They will also turn towards organic farming.
5. Will help to maintain the environment pollution free and
6. Will get the knowledge of biodiversity of local earthworms.

ELIGIBILITY:

Eligibility of the course	: 10+2
Fees structure	: Unpaid course
Intake capacity	: Total numbers of seats 30
Duration of the course	: duration of the course will be four month.

SYLLABUS:

UNIT I :

5
5 hrs

1. Vermiculture – Definition, History, scope and economic importance.
2. Earthworms-Taxonomic Position and Diversity of different species of earthworms
3. *Eisenia fetida*- Systematic position, Morphology and Life cycle.

UNIT II :

5 hrs

1. Common species for Vermiculture; Environmental requirements; culture methods.
2. Applications of Vermiculture.
3. Earthworm Pests and Diseases.

UNIT III :

10 hrs

1. Vermicomposting Materials.
2. Types of vermicomposting: Earthworm Pests and Diseases.
 - a. Small Scale Vermicomposting
 - b. Large Scale Vermicomposting.
3. Methods of Vermicomposting: Bed Method, Pit Method.
4. Phases and Steps of Vermicomposting.

UNIT IV :

5 hrs

1. Harvesting
2. Nutrient Content of Vermicompost
3. Advantages of Vermicompost
4. Vermiwash. Preperation and Applications
5. Prospects of vermi-culture as self employment venture.

PRACTICALS:

10 hrs

1. Study of vermiculture, vermiwash and vermicompost equipments, devices
2. Bed preparation
3. Maintenance of vermicompost and climatic conditions. Harvesting, drying, packaging, transport and storage of vermicompost.
4. Vermiwash collection and processing technique

LEARNING OUTCOMES:

1. Understanding the role of worm farming in Modern Farming.
2. Understanding the potential of vermicompost as an alternative to chemical fertilizers.
3. Role of vermiculture in maintaining the health of soil and humans.
4. Understanding the role of worm farming in Modern Farming.
5. Economic importance of vermiculture.
6. Role of Vermiculture in protecting the environment and managing the waste.

Report of Add-on course

Add-on course: VERMICULTURE AND VERMICOMPOSTING

Duration: 30 Hours

Started on: 19-01-2023.

Completed on: 08.04.2023

Name of the faculty: Dr. Manjunath. K

Total No of students admitted: 24

Total No of classes taken: 30

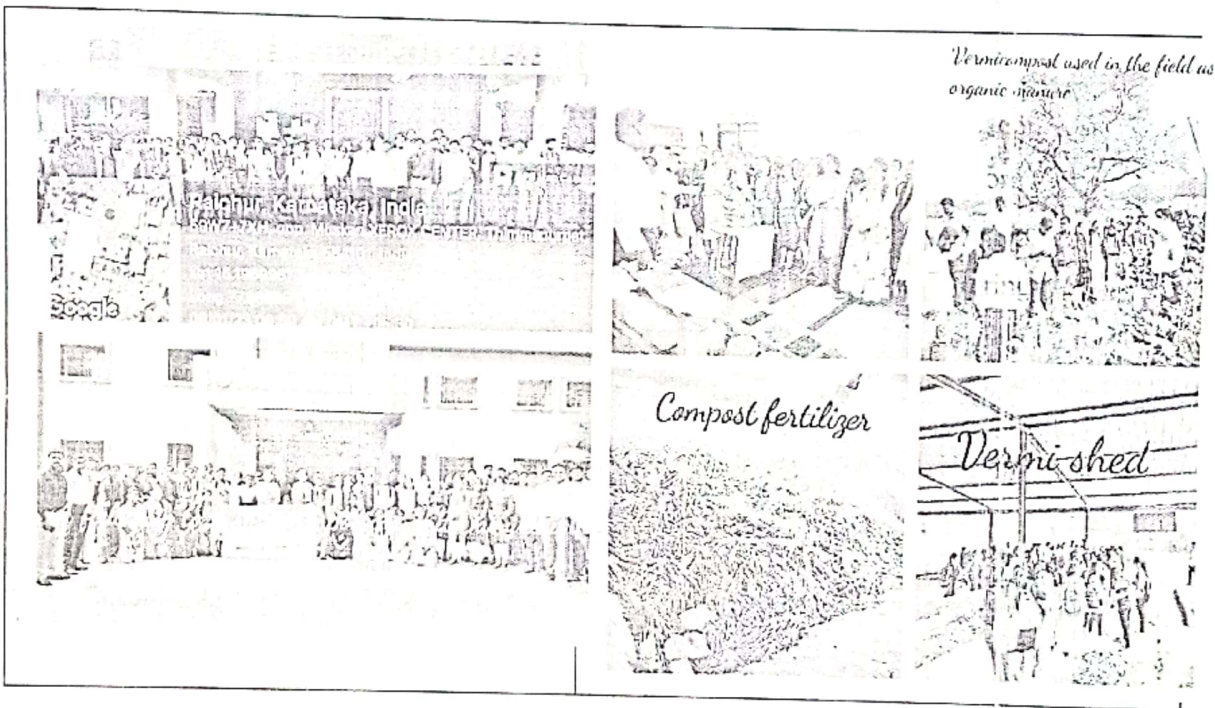

Total No of students benefited: 24

REPORT:

From the course students will be able to understand about worms and its compost as an ecofriendly natural fertilizer which can be prepared from biodegradable organic wastes. Department of Zoology has offered this course for B.Sc. I, II, III students. This courses biotic factors in maintaining life within an environment. This course was conducted during the 19th Jan 2023 to 8th Aug 2023. During this period the lectures and practicals were conducted by resource faculties. 24 students have taken advantage of this course.

After completing this course the students were enable to understand the importance of Vermiculture and Vermicomposting.
