MEMORANDUM OF UNDERSTANDING

BETWEEN

LAXMI VENKATESH DESAI COLLEGE, RAICHUR

AND

AKHILA FOODS AND BEVERAGES, RAICHUR

FOR

**ENTREPRENEURIAL SKILL DEVELOPMENT, OUTCOME BASED TRAININGS,
PLACEMENT AND RELATED SERVICES**

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (hereinafter called as the 'MOU') is entered into on 17th January 2023 between Department of Zoology, Laxmi Venkatesh Desai College, Raichur (herein after referred to as 1st party) represented by Dr. Malkanna Associate Professor & HOD

AND

Akhila Foods and Beverages (herein after referred to as 2nd party) represented by Mrs Akshatha

PURPOSE OF MOU

In particular, this MOU is intended to

1. To promote and enhance academic interest.
2. Student exchange for research and study
3. Arrange the placement of trained student

AGREEMENTS:

CO-OPERATION

Both the parties will ensure with common opinion about the work and shall mutually share opportunities among themselves.

There shall be co-operation between first party and second party i.e. second party will facilitate effective utilization and providing lab with the training.

SCOPE OF THE MOU

- Cooperation between the both the parties benefits the student community to enhance skill based knowledge.
- Second party will give valuable inputs to the First party so that students to cope up with the industrial scenario.
- The second party will actively engage in training and placement of students of the First Party into internships/jobs.

VALIDITY

1. The agreement between both the parties will be for two year.
2. The agreement between the both the parties may be terminated with advance notice of at least thirty (30) days.
3. The agreement may be extended by mutual understanding.

This Memorandum of Understanding completed in English is hereby signed in two (2) copies with one (1) copy remaining in the possession of each institution.

**FOR THE DEPARTMENT OF ZOOLOGY, LAXMI VENKATESH DESAI COLLEGE,
RAICHUR.**

Party A:

Head of the Department Zoology

Date:

Date:

FOR THE AKHILA FOODS AND BEVERAGE, RAICHUR

Party B:

INDUSTRIAL VISIT (AKHILA FOODS AND BEVERAGES) 16-1-2023

Head of the Department Zoology

REPORT:

Students of Department of Zoology visited to "AKHILA FOODS AND BEVERAGES" under the guidance of faculties Dr. Manjunath. K, Mrs. Akshatha and Miss. Swathi.

A special lecture was organized to understand the process involved in the structure and working of the water purification plant.

Students got an excellent benefit by visiting the biggest water purification plant in this area with and understand about the purification methods.

Water treatment is whereby the used water or raw water from the river is treated in process to make the water more acceptable for a desired end-used. The goal of water treatment is to remove existing contaminants in the water, or reduce the concentration of such contaminants so the water becomes fit for its desired end-used. The process involved in treating water is solids separation using physical process and chemical process.

Before the water is distributed into the public houses, the water has to undergo the water treatment process such as follows: -

- It is also to increase DO level in water and remove DOC
- Coagulation is the removal of turbidity from the water.
- Turbidity is a cloudy appearance of water caused by small particles suspended therein.

Water with little or no turbidity will clear.

- Disinfection is to destroy pathogens within a practicable period of time.

This field visit knowledge to the students about the purification of water on large scale and made us aware about the quality of water since it may affect the human health especially
