**Sub: Submission of feedback analysis report for the academic year 2022-23
about the existing curriculum of Raichur University, Raichur**

Sir,

Greetings of the Day!

As a part of the quality assurance initiative, IQAC collects feedback on the curriculum, teaching-learning process, and ambiance of the teaching-learning facilities from the various stakeholders such as Students/Teachers/Alumni and Employers for improvement in curriculum delivery and development Processes.

We have carried out a systematic analysis of the feedback obtained on the curriculum from various stakeholders. We want to present the following opinions of the stakeholders for future curriculum development and revision processes at the University:

- Introductory IT Skills courses should accompany Arts programs
- Some locally need-based courses/fieldwork/University approved add-on programmes are to be introduced across all programmes based on community-based learning
- An industry internship of 6 months should be made compulsory for the BCA course.
- In PG courses, Students should be availed of a couple of specializations based on open electives and in-demand skills in the current market.

The above points will be helpful and will be considered for future curriculum development by the University.

Sub: Feedback regarding B.Sc. Physics Syllabus (NEP)

Sir/Madam,

As cited in the above subject we have collected feedback on the curriculum from Staff, Students, and Alumni we observed that B.Sc. V and VI semester papers must include **Academic and Internship projects and study tours**. as they are an important part of the learning process for college students

We request you to consider our observations and include the above in the syllabus

Thanking You,

Yours Faithfully

Sub: Feedback regarding B.Sc. Computer Science Syllabus (NEP)

Sir/Madam,

As cited in the above subject we have collected feedback on the curriculum from Staff and students we observed that

1. The B.Sc. computer science syllabus does not include theory and practicals on **Office Automation tools**, so we request you to include this topic in the syllabus for either B.Sc. I or II semester as it is a must for documentation and presentation.
2. The B.Sc. V and VI semester papers must include **Academic and Internship projects** so that the students can do their own research and come up with practical solutions to the concepts they are learning.

We request you to consider our observations and include the above in the syllabus

Thanking You,

Yours Faithfully
