**REPORT**

As the part of Social extension activities in association with Social Forestry and Local Community a program on "World Ozone Day" was held on 16-09-2019.

The ozone layer of the Earth protects us from the harmful ultraviolet rays of the sun. Unfortunately, our race for maintaining a high quality of life has led to its depletion. On 1st January 1989 the Montreal Protocol came into force to stop the depletion and reduce the usage of substances that cause holes in our protective blanket. Sustaining the Ozone layer is hence the collective responsibility of the entire nation.
