3. Dr Vinay A Nephrologist

1st session :

Session started with information how healthy is fast food and street food, Dr Vinay briefly discussed how unhygienic is the street food. The pollution of water and food through human waste and anthropogenic activities, including industrial waste and agricultural runoff, is a mounting problem worldwide. Water pollution from microbes causes identifiable diarrhea illnesses. The consumption of water contaminated with heavy metals, fluoride, and other toxins causes insidious illnesses that lead to protracted, non-communicable diseases and death. Chronic Kidney Disease of unusual/uncertain/unknown aetiology is one such example, began to manifest in the mid-1960s in several dry-zonal agricultural societies in developing economies that are located around the equator.

Dr. Jayateertha N S, proposed vote of thanks.

Feedback:

All the faculties expressed their gratitude to IQAC Coordinator, Dr. Jayateertha N S for organizing the program which was useful.

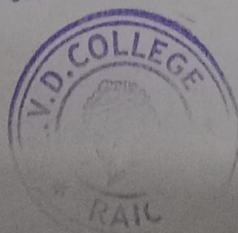

Future Perspectives: The IQAC is looking forward to organize seminars/conference/workshop with respect to multidisciplinary area.

Report Submitted by: Dr. Jayateertha N S

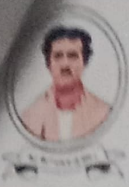

Designation: IQAC Coordinator, HOD & Associate Professor

Department: Laxmi Venkatesh Desai College, Raichur.
