Report on Workshop of the Reality of Anemia

Introduction:

On 12/01/23, a workshop on anemia was conducted in our college to create awareness on the problems and consequences young women and girls of age group 14-48 phase due to this growing disorder.

Program Details:

The program was honored by the presence of chief guest **Dr. Neha Sukhani** (Associate professor, RIMS) and **Dr. Ashwini** (MD, MIMS Mandya). The dignitaries talked about the symptoms that reappear in women if they are anemic and have blood levels less than 12mg/dL. They also conducted a small play that showed the adverse symptoms a young girl can face if the disease is untreated and not diagnosed prior to treatment.

Later, a small demo on how to check the hemoglobin levels was conducted by the department of zoology. Here, students belonging to various year and the mothers of these students were invited to test their Hb levels in their blood. This significantly helped the people to not just know their Hb levels but also identify the symptoms they faced in their routine life.

Conclusion:

The programme was a huge success and was well appreciated by the dignitaries and the principle of our LVD College. Dr. Neha mam thanked department of Microbiology for conducting such an interesting workshop.
